LINE OFFICERS TO TAKE TESTS

Physical examinations which they took when trying out for promotion during the last year are not sufficient to allow the annual tests to be done away with by line officers of the army, according to word received today from Washington.

The examinations will probably be held here about the middle of February, though no definite date has been set as yet. This will mean that all line officers in the department will be required to take the three days "Russian Ride" of 20 miles a day.

There has been considerable speculation at headquarters as to whether or not the annual physical examinations would be passed over this year in view of the recent tests for promotion, but today's advice is that the latter are not to be considered as taking the place of the annual examinations.

NAVY MAY SEND AIRSHIPS HERE

Reports that the navy department is considering the establishment of airships here as well as the army, were partly verified today by Capt. George R. Clark, commander of the Pearl Harbor naval station, who said that although he has had no definite word from Washington of late he understands that the navy intends to bring airships here sooner or later. As already stated in the Star-Bulletin Hawaii seems in line for the first squadron of airships sent out under the new defense act. If this squadron is established at Fort Kamehameha and if another is placed for the navy at Pearl Harbor, this will make a joint aviation division for this island of considerable strength.

SCHAEFER CAPTAIN IN ARMY RESERVE CORPS

Gustave Schaefer, former captain of Company D, 1st Infantry, National Guard, has received his commission from Washington as a captain in the army reserve corps, according to an announcement today.

Captain Schaefer resigned from the national guard several months ago, stating at the time he had applied for a commission in the reserve. He had the reputation in the guard of being one of its most efficient officers.

GUARD OFFICERS WILL ASSIST AT RECEPTION

Through orders just issued at guard headquarters the following officers are detailed to assist at the New Year's reception to be given by Governor Pinkham at his residence on Hackfeld and Lunaillo next Monday afternoon: Capt. Henry P. O'Sullivan, Henry Van Gieson, L. G. Blackman, F. J. Dougherty, G. K. Larrison and S. M. Lowrey and Lieut. W. C. Woodward, Lawrence M. Judd and Willard Wayne.

SUBMARINES GETTING READY FOR NEXT RUN

Word from Pearl Harbor today is that the four K submarines will begin their regular quarterly practice, known as the 90-hour run, in about two weeks. This is both a surface and under-water test and the under-sea boats are getting ready for it.

Heavy rain fell at the naval base throughout the night and forenoon of today, say officers there. Much outside work is being abandoned during the downpour.

RESTRICT ATTENDANCE AT BIG MILITARY BALL

Only men of the service and their invited guests will attend the army and navy ball to be held during Carnival week. This is a change over previous arrangements, the ball having formerly been open to everybody. As the plan resulted in some unfortunate incidents it was decided to make restrictions. An attendance of 2000 is anticipated.

AUSTRALIAN HAS SOME ODD IDEAS

Carrying as a "souvenir" of regard from Mexican army purchasing agents two bullet holes and a scar over his forehead where a man struck him with a rifle butt, Leo Kilgannon, an Australian, who had a cattle ranch in Chihuahua until the assassination of Madero put him out of business, was a through passenger Wednesday on the Canadian-Australasian liner Niagara, bound for Sydney, where he hopes to enlist with the Australian volunteers and get into the war.

"Villa is the strongest man in Mexico today," said Kilgannon on board the liner before her departure for Sydney Wednesday afternoon. "He is also blessed with the most wonderful luck—the luck of the devil."

"I do not think Mexico will become peaceful and business conditions there stable again until Great Britain steps in, after the war is over, and with the consent of the United States cleans up the country. The United States is in no position to intervene now."

Kilgannon's bullet wound memento and his rifle butt scar were given him by purchasing agents of the Mexican army. "Their system was to buy stock from us ranchers and give us orders on the commanding officer for payment. The orders could never be collected without the aid of a battery of field artillery. That's the reason I left Mexico and went to Alberta, where I have been ranching for the last two years," he concluded.

TURKEY MAY DUPLICATE BERLIN POLICE FORCE

[By Associated Press] BERLIN, Germany.—Turkey has become so impressed with the efficiency of the Berlin police that it has sent to Berlin the director of the Constantinople criminal department, Behaeddin Bey, to study the methods in vogue here, so that on his return he may reorganize the police of Turkey's capital and principal cities, and introduce German methods there.

Behaeddin Bey, among other things, plans to introduce in Turkey the German equivalent of the Bertillon system in vogue in America, and many of the German detective methods. There will also be published a bi-weekly police newspaper for the "intellectual enlightenment of Turkish police officials and the development of police methods."
